INTRODUCTION TO UTS

The University of Technology, Sydney is committed to freedom of inquiry, equality of opportunity, the pursuit of excellence in teaching, research and scholarship, and interaction with the professions.

UTS was originally established as the New South Wales Institute of Technology in 1965. In 1988 it attained university status and was joined by the School of Design of the Sydney College of the Arts.

The University resulted from amalgamations brought about by the restructuring of the higher education sector in the late 1980s, and in January 1990 the Kuring-gai College of Advanced Education, the Institute of Technical and Adult Teacher Education of the Sydney College of Advanced Education and the ‘old’ UTS formed the new University of Technology, Sydney.

Object and functions of the University

The object of the University is the promotion, within the limits of the University’s resources, of scholarship, research, free inquiry, the interaction of research and teaching, and academic excellence.

The functions of the University are stipulated in Chapter 9 of this Calendar (section 6, University of Technology, Sydney, Act 1989 No 69).

Location

UTS is a multicampus university spread over three locations in the Sydney metropolitan area. City campus incorporates buildings at a number of locations close to the Central railway station. Kuring-gai campus is in a bushland setting on Eton Road, Lindfield, 15 kilometres north of the city. St Leonards campus is close to the St Leonards railway station, seven kilometres north of the city.

Courses

UTS offers undergraduate courses (Bachelor’s degrees at Pass and Honours standards) and postgraduate courses (including Graduate Certificates, Graduate Diplomas, Master’s by coursework, Master’s by thesis and Doctoral degrees). These courses are of a standard that enables graduates to undertake full professional practice in their chosen field.

Detailed information about the courses offered by the University is published in the UTS: Handbook. The Handbook is also available online at: http://www.handbook.uts.edu.au

Student profile

With a total enrolment of approximately 31,000 students, UTS is one of the largest universities in Australia. UTS places a strong emphasis on workplace experience, incorporating the latest industry practice and professional standards into its curriculum. To achieve this, UTS has entered into partnership with a range of industry bodies, corporations and government authorities, and this has helped it to achieve one of the highest rates of employment for graduates in New South Wales.

Equity and diversity

UTS is committed to promoting access, equity, diversity and social justice for both students and staff. It is University policy to provide equal opportunity for all people, regardless of race, colour, descent, national or ethnic origin, ethno-religious background; sex; marital status; pregnancy; potential pregnancy; carers’ responsibilities, disability, age; homosexuality; transgender status; political conviction; and religious belief. A range of programs and services helps to ensure that the University’s staff and student communities reflect the diversity of the wider community. The Equity and Diversity Unit coordinates a range of strategies and programs to support students and staff from diverse backgrounds.

International profile

The sustained internationalisation of UTS enables the University to continue to provide a more relevant curriculum and a greater understanding of international issues for its students and staff. Students are encouraged to gain international exposure and experience as part of their degree program. UTS staff are encouraged to internationalise their expertise and knowledge, and faculties run programs and teach courses overseas. International students from overseas study in all parts of the University both on and offshore.

The Institute for International Studies offers a series of undergraduate programs in collaboration with the faculties that combine a Bachelor of Arts in International Studies with a professional specialisation. The Institute has established In-country Study programs in different countries across the world to support the Bachelor of Arts in International Studies.

Students may also enrol in programs of teaching and learning concentrating on the language and culture of another country as part of their UTS degree. They also have the opportunity to go on exchange as part of their program at UTS. They may spend one or two semesters studying at an overseas university and receive credit towards their UTS degrees.

UTS welcomes students from overseas. There are international students from over 70 countries in all faculties and on all campuses. The University is fully committed to internationalisation in all aspects of its operation.

Academic structure

UTS undertakes its teaching and research programs principally through the following academic structure:

• Faculty of Business
• Faculty of Design, Architecture and Building
• Faculty of Education
• Faculty of Engineering
• Faculty of Humanities and Social Sciences
• Faculty of Information Technology
• Faculty of Law
• Faculty of Nursing, Midwifery and Health
• Faculty of Science
• Institute for International Studies.

The academic structure also includes the Institute for Interactive Media and Learning, the Institute for Sustainable Futures and the University Graduate School.

The University also has a wide range of research and development centres, many of which are multidisciplinary in nature. These are described in Chapter 5 of this Calendar.
Research and development

UTS has built a reputation for high-impact research with a focus on collaborative approaches and with national and international standing in carefully selected areas of concentration. UTS aims to continue to improve overall research performance and standing to complement the high regard of its teaching and learning programs by a continued focus on collaborative research of benefit to society, building researcher capacity, strengthening linkages nationally and internationally, and developing a dynamic research environment.

The University established four major University Research Institutes in 2002 focusing on:
- nanotechnology
- biotechnology of infectious diseases
- information and communication technologies
- water and environmental resource management.

In addition, it has established eight Key University Research Centres in:
- built infrastructure
- corporate governance
- culture and communication
- health economics
- health technologies
- innovative collaborations and alliances
- quantitative finance
- organisational, vocational and adult learning.

MISSION STATEMENT

The University of Technology, Sydney, is an Australian university with an international focus. It provides higher education to enhance professional practice, to serve the community at large and to enable students to reach their full personal and career potential.

Through its promotion of learning and pursuit of research and creative practice, the University contributes to the advancement and integration of knowledge, professional skills and technology, and their intelligent, sustainable and enterprising application for the benefit of humanity.

Guiding principles

UTS will be guided by a strong commitment to:
- excellence in the achievement of its mission
- intellectual independence and sound ethical practice
- close collaboration with the professions, business, industry, government and the wider community
- equitable access to education
- indigenous cultures and the process of reconciliation
- international perspectives and the richness of cultural and social diversity
- sustainability – ecological, social and economic
- fairness and transparency, and
- critical commentary on public issues.
THE UNIVERSITY’S STRATEGIC PLANS

In 2004, the Council of the University recommitted UTS to its current vision as articulated in Setting the Pace. In summary, this vision is for UTS to be renowned as:

• a provider of dynamic and challenging professionally oriented higher education
• a vibrant learning community
• a leader in collaborative research and education
• an international university
• an influential and enterprising university
• an inspiring place to work.

During 2004, Council also approved a new strategic plan for the period 2005–2008, which defines objectives and strategies for UTS to fulfill its vision. The plan is supported by key performance indicators. The plan is built around three interdependent themes:

1. UTS is distinguished by its imaginative and collaborative approaches to practice-oriented teaching and learning, and outcomes-oriented research and creative practice.
2. UTS is international, intellectually challenging and nurtures both student and staff capability.
3. UTS has a vibrant social, cultural and physical environment.

The Vice-Chancellor’s Committee and Council monitor performance against the plan regularly. Sponsors have been nominated for each objective, strategy and performance indicator.

The strategic plan is being implemented in association with a series of pan-University enabling plans for themes such as international activities, campus development, community engagement and equity, as well as plans for each faculty and unit.

UTS EMBLEM AND LOGO

The emblem embodies three main components. The most prominent feature is the anchor drawn from the coat of arms of the City of Sydney where the largest campus of UTS is located. It reinforces the University’s traditional close links with government, commerce and industry within the city.

The base of the anchor also forms one of the spirals of the double helix in the representation of the DNA molecule, the basic building block of life itself. The symbol, therefore, reflects the innovative, technological character of the University.

The wave motif at the base complements the other elements in the design, and underlies the maritime position of the City of Sydney.

This contemporary design is contained in a heraldic shield which provides a sense of continuity with tradition for institutions of higher learning through the ages.

The emblem (in teal blue PMS 321) can be used singly, or in association with the stylised ‘UTS’ acronym to form the UTS logo.

Applications to use the UTS emblem and logo should be directed to the Registrar.
